

Mobile LED Advertising Trucks Manufacturer in China

Features

1. Quick maintenance: The LED screen installed on the truck is usually maintained before and after use. The advantage of this is that if there are some minor problems, it only needs to be removed from the front for maintenance. If you encounter a slightly more complicated problem, the entire thing can be removed from the back and replaced.

2. Low cost: Those popular billboards often cost tens of thousands, or even hundreds of thousands, for a second of advertising. The money spent is enough to buy a truck LED display for advertising. Therefore, compared with advertising on popular billboards, the cost of purchasing mobile LED advertising trucks for advertising will be lowered.

3. Clear visuals: The screen usually uses a high refresh rate, so the visual effect is lifelike. Its brightness is also adjustable, so you can easily match the light and smarts to what you need in your outdoor area. Additionally, it features high contrast, 16-bit grayscale, and more.

Specification

Model	P4	P5	P8	P10
Pixel Pitch	4mm	5mm	8mm	10mm
Pixel Density	62500dot/m ²	40000dot/m ²	15625dot/m ²	10000dot/m ²
Color Configuration	SMD 3in1 1R1G1B			
Module Size	320 x 160mm			
Module Resolution	80 × 40dots	64 × 32dots	40 × 20dots	32 × 16dots
Cabinet Size	640mm x 640mm/960mm x 960mm or customized			
Driver Mode	1/10 Scan	1/8 Scan	1/5 Scan	1/2 Scan
Cabinet Material	Iron			
Brightness	4000-7000cd/m ²			
Max Power Consumption	1200W/m ²			
Average Power Consumption	400W/m ²			
Refresh Rate	1920Hz/3840Hz			
Grey Level	16Bit			
Certifications	CE, ROHS, ISO9001			
View Angle	Horizontal 140° Vertical 140°			
Screen Control Method	PC or Mobile Phone			
IP Rating	IP65			
Input Voltage	AC110V-220V,50Hz-60Hz			
Temperature-operating	-10°C-60°C			
Life Span	≥100,000 Hours
